Content types

Games

The type of content is identified by a logo in the bottom left corner. Hovering the mouse over the item will also display the content type. There are a variety of interactive games to choose from.

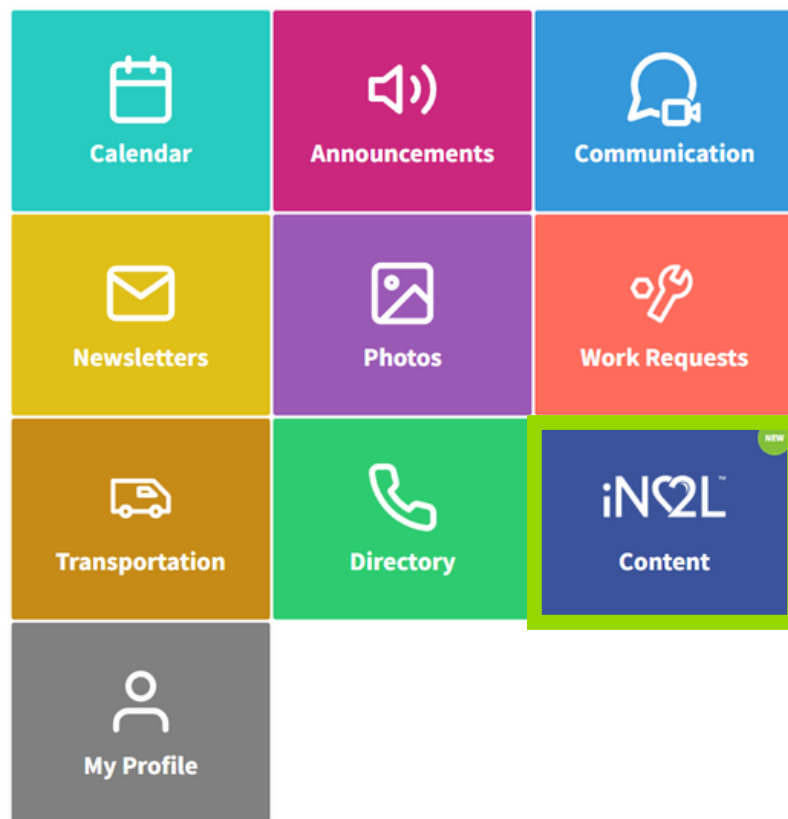

Note: Some games may need to be turned to landscape or portrait mode to play the game in the LifeLoop mobile app.

Content on the web

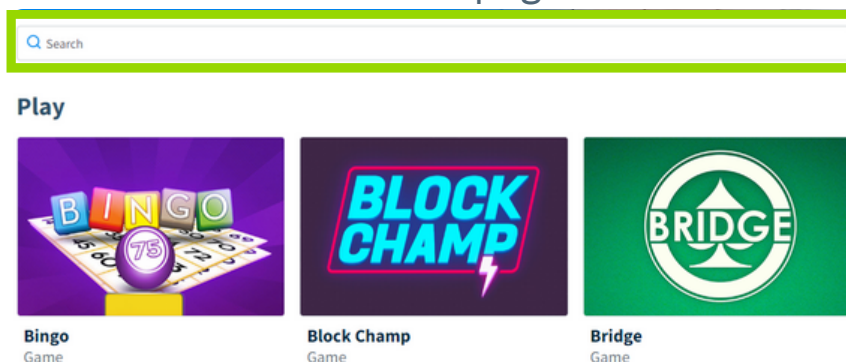

Step 1

Select the content tile in the feature menu on the home page.

Step 2

Utilize the search bar to easily locate the title of the content or scroll down to select content from the main page.

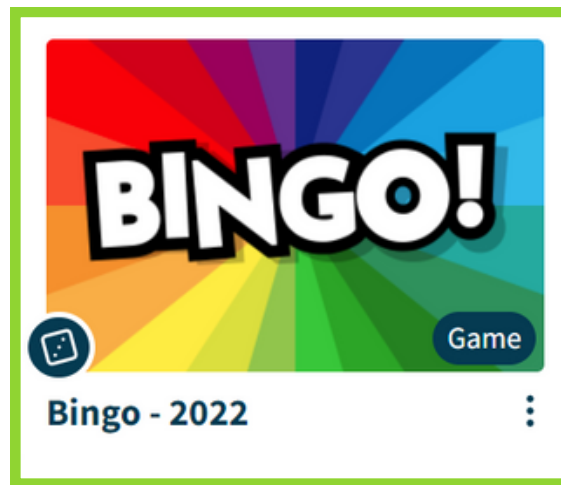

Content on the web

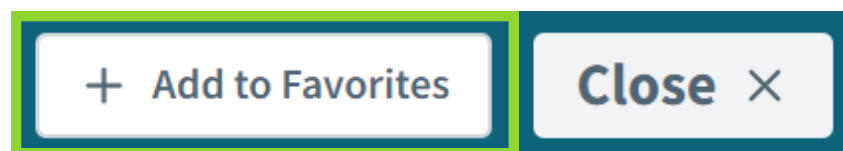

Step 3

To open a specific content item, select the content.

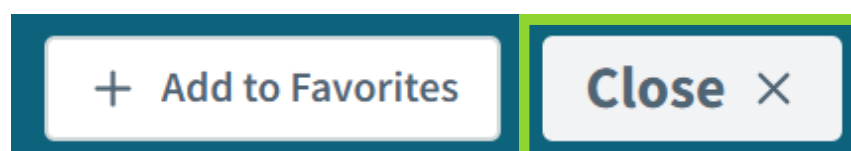

Step 4

To add content to favorites, select + add to favorites in the upper right corner.

Step 5

To exit content, select close in the upper right corner.

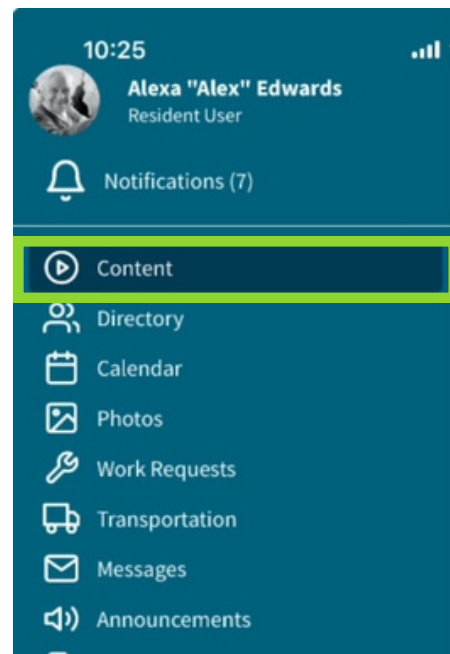

Content on the mobile app

Step 1

Select the hamburger menu, the three horizontal lines on the top left-hand corner , to open the feature menu.

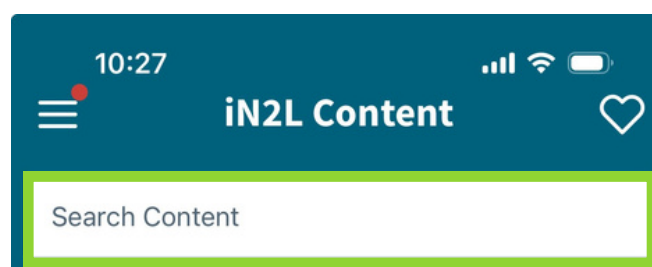

Step 2

Select content from the feature menu.

Step 3

Utilize the search bar to easily locate the title of the content or scroll down to select content from the main page.

Content on the mobile app

Step 4

To open, select the content.

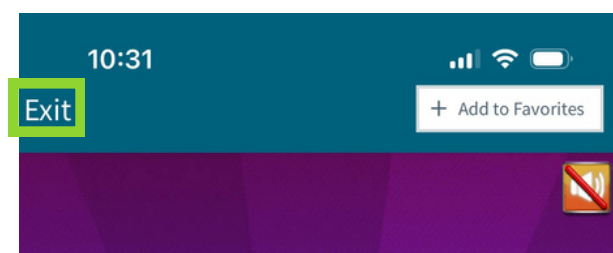

Step 5

To add content to favorites, select + add to favorites in the upper right corner.

Step 6

To leave content, select **exit**, select exit in the upper left corner.

FAQs

What is content?

Content is a library of games available to residents to help promote resident engagement and connections with others all while having fun.

What can content do for me?

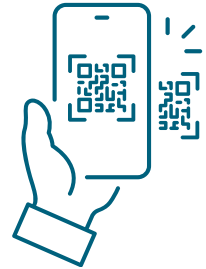

Content helps connect residents with what interests and fulfills them by enabling them to share conversations, experiences, learning, and fun with each other, their caregivers, and their family.

I don't see the content feature. Does my community have content?

Content is only available at select communities. If you would like to add content, please contact support@lifeloop.com or your community representative.

Resources

Video QR Codes

How to Scan QR Codes

Open the Camera app on a mobile device. Hold the device so the entire QR code is visible in the camera frame (you don't need to take a picture). Once the QR code has been read, a notification will appear at the top of your screen.
