PCC INTEGRATION

PCC GENERAL FAQS

WHEN I MAKE CHANGES, WHERE DO I GO FIRST?

Anytime you want to make edits to resident or connection information, edit in PCC first. LifeLoop will sync and adjust the changes. We pull information from PCC. It is the "source of truth".

HOW OFTEN DO THE SYSTEMS SYNC?

Our system syncs with PCC every couple seconds. If an adjustment is not being made, please contact support@ourlifeloop.com to have them manually run a sync for you.

CAN I ADD A CONNECTION CONTACT TO LIFELOOP BUT NOT INVITE THEM TO REGISTER AND LOGIN TO LIFELOOP?

Absolutely. Connections can still be added to LifeLoop as a connection without actually inviting them to join LifeLoop. This is helpful as you can still send them announcements if they are in LifeLoop as a connection.

RESIDENT FAQs

WHAT TRANSFERS OVER TO A RESIDENT'S PROFILE?

First Name *(required)*

Archer

Last Name *(required)*

Seeger

Date of Birth

1962

Jul

4

Phone

(555) 555-5555

Community *(required)*

Changing this resident's community will unlink him/her from PointClickCare

Assisted Living

Unit (Room Number)

502

Move-In Date

10/07/2021

Email

archer@ourlifeloop.com

WHY ARE SOME BOXES GRAY AND WHY CAN'T I EDIT THEM?

These boxes are gray because you cannot edit this information. The information is pulling directly from PCC. To edit these areas, please edit in PCC and it will transfer over to LifeLoop.

PCC INTEGRATION

RESIDENT FAQs

WHY DOES THE COMMUNITY BOX HAVE A WARNING?

Changing the resident's community in LifeLoop will unlink this resident from the PCC sync. To adjust which community this resident is connected to, please adjust their community in PCC. When our systems sync, it will adjust which community this resident is connected to.

Community (required)

Changing this resident's community will unlink him/her from PointClickCare

Assisted Living

WHERE DO I MAKE A STATUS CHANGE FOR A RESIDENT?

If a resident is going on leave or being deactivated, please make the change in PCC. This status will transfer to LifeLoop and they will be moved to their correct status.

PCC INTEGRATION

CONNECTION FAQs

WHEN UTILIZING THE PCC INTEGRATION, YOU HAVE TWO OPTIONS FOR PULLING OVER YOUR CONNECTIONS

Option 1 is to not sync automatically. Contacts in PCC will show under each resident in LifeLoop with a PCC tag but will act like a suggested connection and will need to be added and invited to receive communication and/or login. (This route is suggested if unsure of the accuracy or quality of current contacts in PCC).

Option two is to auto sync. Auto syncing will automatically add all PCC contacts into LifeLoop as contacts that can receive announcements. It also will make inviting all to register much easier as they will all show in the connections tab and can be mass invited to register.

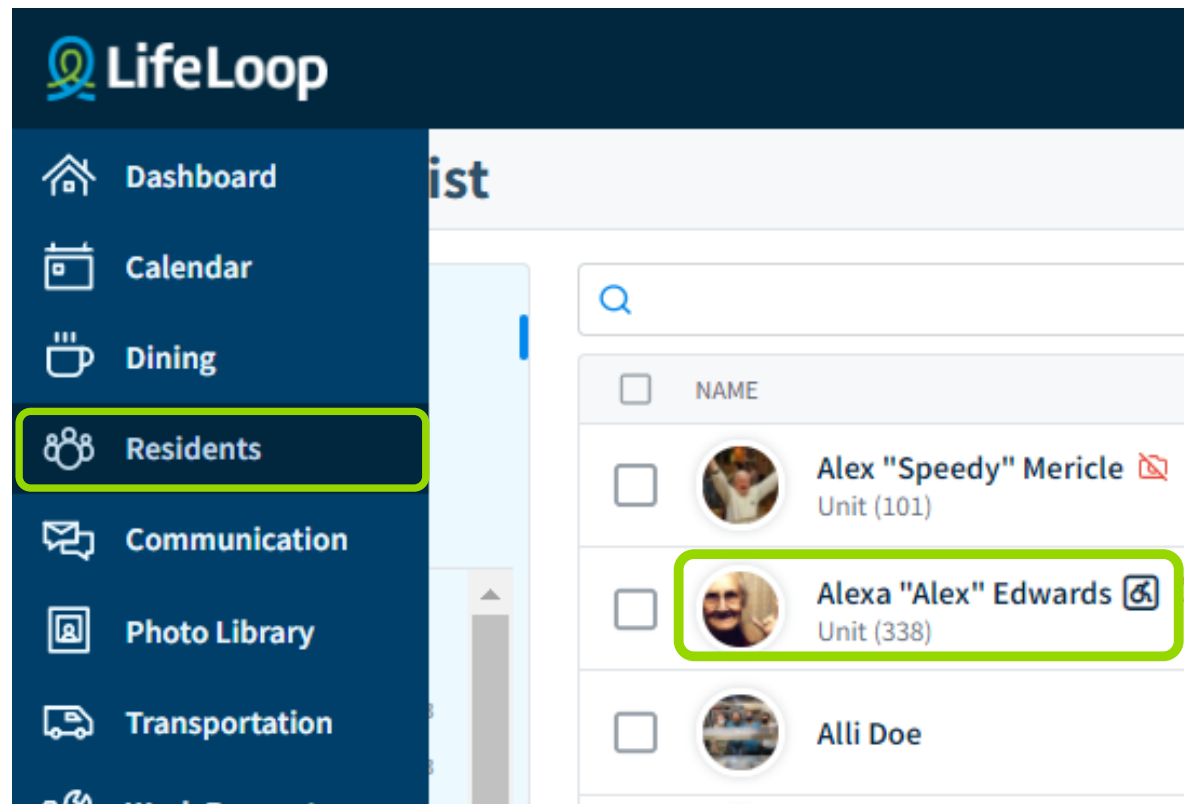

*You will discuss both options during implementation and further details on each are outlined next.

PCC INTEGRATION

HOW TO ADD AND INVITE NON-SYNCD PCC CONNECTIONS

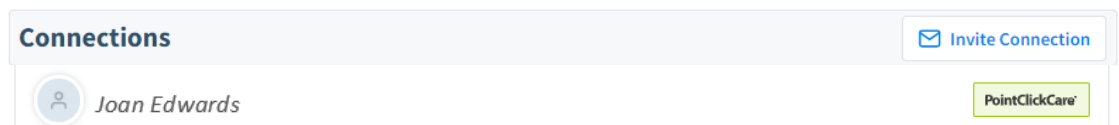

STEP 1

Find the resident you are looking to add the connection to on the resident list and open their profile.

STEP 2

Scroll down to the resident's connection list and click on the connection's name that has a PointClickCare button by their name.

PCC INTEGRATION

HOW TO ADD AND INVITE NON-SYNCD PCC CONNECTIONS

STEP 3

Click 'Add to LifeLoop'.

This contact was found in PointClickCare. If you would like to add this contact into LifeLoop as a Resident Connection, click the button below.

Add to LifeLoop

This connection has now been added as a LifeLoop connection. You can see their name is no longer gray or italicized and the PointClickCare button is no longer by their name. If no other action is done, this connection will receive announcements only.

PCC INTEGRATION

HOW TO INVITE SYNCED CONNECTIONS

SYNCED CONNECTIONS

Connections that are synced are automatically added to your connections list. Since they are synced, they will already have the capability to receive all announcements. If you would like them to be able to login, an invite will need to be sent. You can easily invite all synced connections under the connections tab.

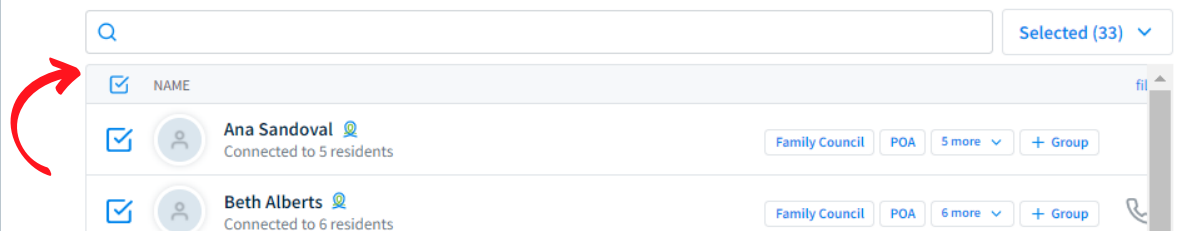

STEP 1

Open the Connections Tab.

STEP 2

Select all connections by checking the little check box on the top of the connections list.

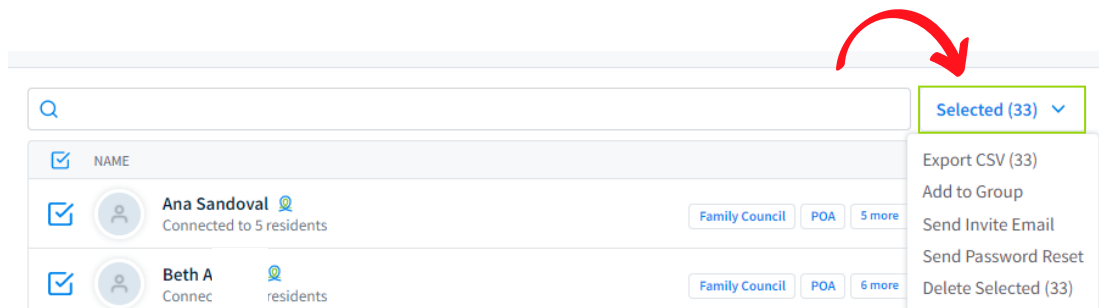

PCC INTEGRATION

HOW TO INVITE SYNCED CONNECTIONS

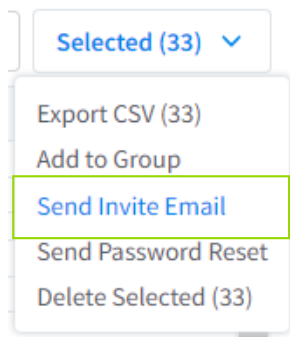

STEP 3

Click on the 'Selected' box on the right-hand side of the connections list.

STEP 4

Click 'Send Invite Email'.

STEP 5

The connection will now receive the welcome email to register and set their password.
