

HOW TO UPDATE YOUR AMAZON FIRE TV STICK

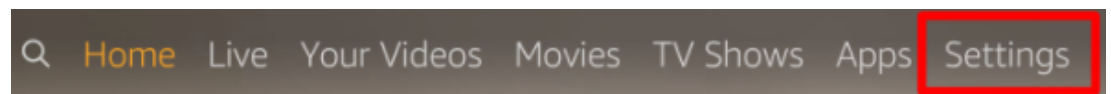

Amazon rolls out new software versions almost every month. It is a good idea to proactively check for updates and manually install them.

HOW TO UPDATE YOUR AMAZON FIRE TV STICK

STEP 1

NAVIGATE TO SETTINGS

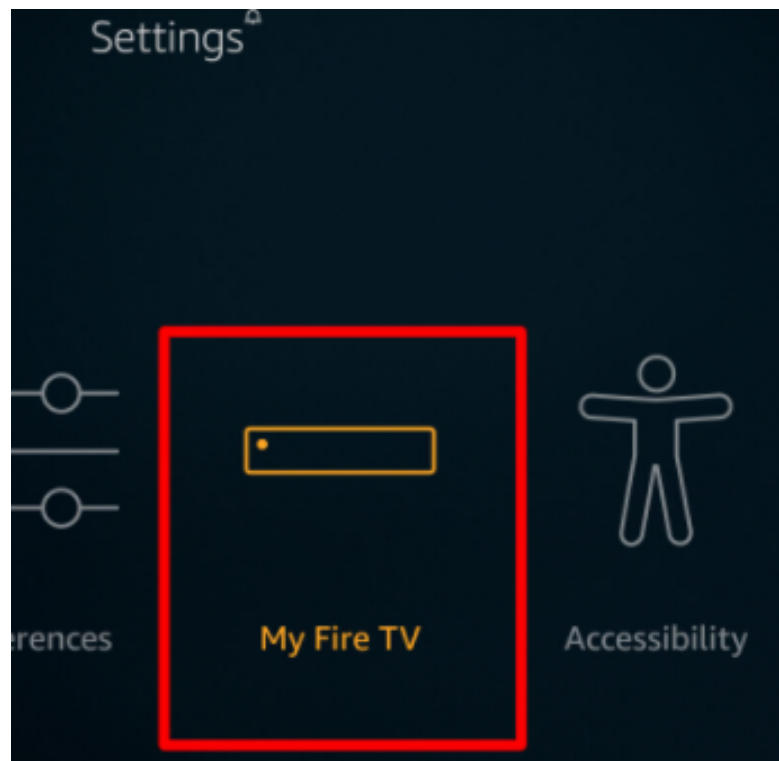

This will be the last option in the menu bar at the top of your Home screen.

STEP 2

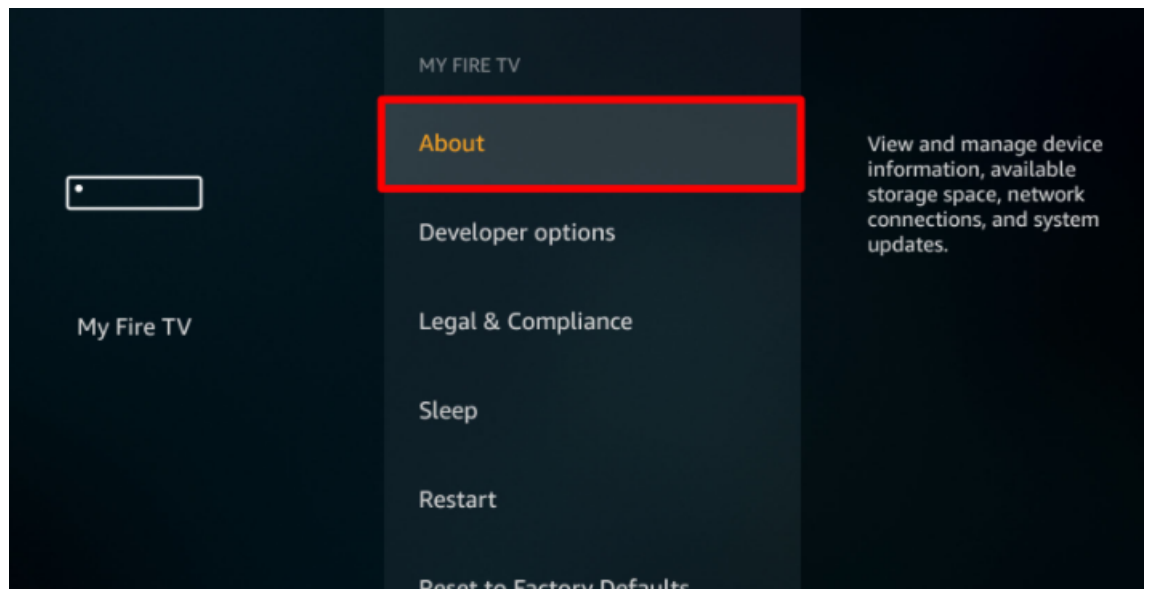

SELECT MY FIRE TV

You will have to scroll to the right to find this option. If you have an older Fire TV Stick, it may be labeled as “Device” or “System” instead.

STEP 4

CHOOSE EITHER “CHECK FOR UPDATES” OR “INSTALL UPDATE”

If your device is up to date, you will see “Check for Update”.

If an update is available, you will see “Install Update.” You will also see a message on the right side of the panel that says the update will automatically begin the next time your Amazon Fire TV is idle. It will also tell you that you need to reboot your system to install the update.

HOW TO UPDATE YOUR AMAZON FIRE TV STICK

STEP 5 HIT SELECT ON YOUR REMOTE

Once you do this, your TV will power off.

STEP 6 WAIT FOR UPDATES TO BE INSTALLED

You will see a message on your screen that says your device is installing the software. Installing the update will take from 5-15 minutes, depending on your internet connection.

Warning: Do not unplug the power cable during the update.
