

VIDEO DISPLAY SETUP INSTRUCTIONS

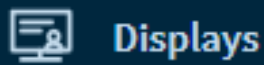

How to add a video to your
LifeLoop Display

VIDEO DISPLAY SETUP

ADDING A VIDEO TO YOUR DISPLAY

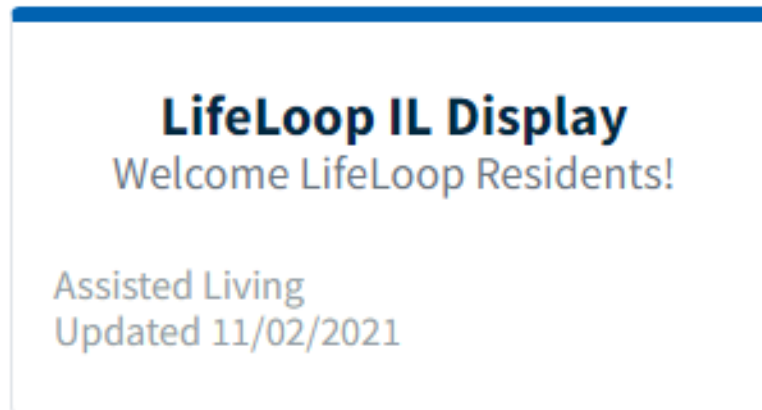

STEP 1

Login to LifeLoop and go to the Displays Tab at the bottom of the feature list.

STEP 2

Select the display you would like to add the video to.

If you do not have an existing display and would like to learn how to set up your display on your Firestick or FireTV, please refer to the below documents that can be found on the Learning Community under the Displays section.

- Display SetUp Instructions
- Connection your Display to your FireTV

VIDEO DISPLAY SETUP

ADDING A VIDEO TO YOUR DISPLAY

STEP 3

Click on Insert New Content.

Main Content

No Main Content Selected

[+ Insert New Content](#)

STEP 4

Select Video from the content options.

Insert Content

Select Content Type **(required)**

LifeLoop Designer Project

Show your design chops

Google Slides

Use a published google slides url

Video

Use a video link to stream video

VIDEO DISPLAY SETUP

ADDING A VIDEO TO YOUR DISPLAY

STEP 5

Paste the URL from your video into the Video URL box.

 **Insert Content** 

Video URL

Content Schedule

Setup Recurrence

 *Video slides are not supported on all devices. [Learn More](#)*

Note: If you would like your video to show on your display only on certain days of the week, a single day, or over an entire month you can set up a recurring pattern by clicking Setup Recurrence.

STEP 6

Now press Insert Content on the bottom right-hand corner.

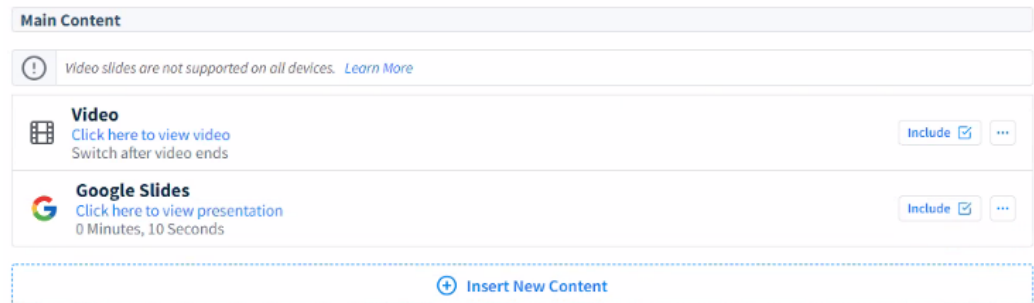

Insert Content

VIDEO DISPLAY SETUP

ADDING A VIDEO TO YOUR DISPLAY

STEP 7

You will now see Video appear within your main content list.

Note: If this is the only content you have on your list, this video will continuously loop. If you have additional content such as additional videos or slideshows, the video will play in full, then rotate to the next content on the list and then loop back to the video once all content has been displayed. If your video is appearing Unavailable like the image below, please check the URL is correct and the video is still active.
