Section 9	Work Requests Permissions in Detail.....	pg 10
Section 10	Other Permissions in Detail.....	pg 11-12
Section 11	Continued Learning.....	pg 13

STAFF PERMISSIONS

DESCRIPTIONS SUMMARIZED

VIEW

Staff user will be able to view that feature but not be able to add, edit or delete.

CREATE

Staff user will be able to create a new request, but cannot manage, delete or change it's status.

MANAGE

Staff user has full access to create, edit, delete and change status of item.

PERMISSION HEIRARCHY

A greyed out checkmark indicates a permission that is selected requires this base permission for it to function. For example: If you can take attendance, the view activities permission would be required and therefore greyed out.

STAFF PERMISSIONS

PERMISSION HIERARCHY

► BLUE VERSUS GREY CHECKMARK

When editing permissions you may notice some have a greyed out checkbox while others are blue. If a permission has a grey checkbox it means that it is required to be selected in order to have a higher level permission that is also selected.

Activities

- ☐ View Activity Details
- ☐ View Activity Calendars
- ☒ Take Attendance

Transportation

- ☐ View Transportation
- ☐ Create Transportation Requests
- ☒ Manage Transportation Requests

► HIERARCHY EXAMPLE

An example of this would be Manage Transportation Requests. In order to Manage the Requests a staff user has to be able to Create. Therefore, if Manage Transportation Requests is checked, Create and View will be greyed out and cannot be unselected. If that higher level permission is unselected, as seen below then the Create Transportation will become a blue check and can be unselected.

Activities

- ☐ View Activity Details
- ☒ View Activity Calendars
- ☐ Take Attendance

Transportation

- ☐ View Transportation
- ☒ Create Transportation Requests
- ☐ Manage Transportation Requests

STAFF PERMISSIONS

NOTIFICATIONS, UNUSED FEATURES AND ROLES

STAFF NOTIFICATIONS

For information on how to manage notifications and the different types please visit the Staff Management section of our learning community and reference the document "Manage Staff Notifications". Any permission tied to a staff notification will be noted in this document. All notifications are dependent on the staff user having the notification preference set in their profile.

PERMISSIONS FOR UNUSED FEATURES

If your community has a feature turned off the permissions associated will not appear as options. Similarly, if a staff member does not have permission to a specific feature they will not see it when logged in to LifeLoop.

PERMISSION ROLES

To understand the different role selections and which permissions are tied to the preset roles please visit the Staff Management section of our learning community and reference the document "Staff Permission".

STAFF PERMISSIONS

ACTIVITY PERMISSIONS IN DETAIL

VIEW ACTIVITY DETAILS

Staff user can select a calendar activity and view the description, registered and attended residents, photos and notes tied to the activity.

Activities

- ☒ View Activity Details
