

Family and connections

A higher level of connection

Our community is proud to offer LifeLoop, a user-friendly platform that enhances the senior living experience for residents, their families, and the staff that care for them.

LifeLoop gives families the transparency and access they deserve. Our staff shares information and additional context on residents' lives with a weekly email update and one-on-one messaging in the Connections Portal.

Available on any device with internet access, LifeLoop's simple app is easy to navigate and promotes resident independence.

Residents can:

- Quickly register for activities
- Easily see updates from the community
- Submit maintenance and transportation requests

LifeLoop simplifies the activity planning process, giving staff more time with residents and allowing our residents and their care to remain our priority.

Find out more about LifeLoop by talking to a staff member at our community.
