Google Slides

Displays

How to add Google Slides to a display.

Table of contents

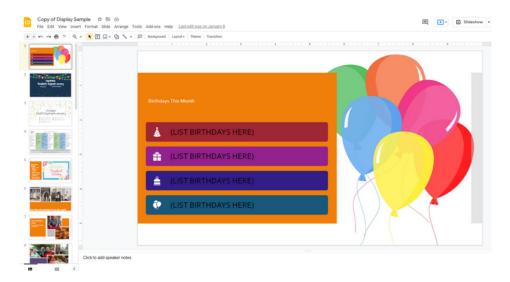

Section 1:	Adding Google Slides to a display	1-9
Section 2:	Resources	10
Section 3:	Continued learning	11

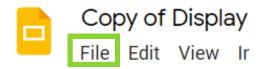

Step 1

Go to Google Slides and open your presentation.

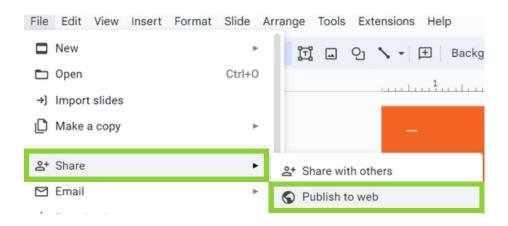

Step 2

Select file on the top left-hand side.

Step 3

Select share, then publish to web.

Step 4

Choose link, and select publish. A URL link will appear. Copy that link.

Publish to the web	×
This document is not published to the web.	
Make your content visible to anyone by publishing it to or embed your document. Learn more	o the web. You can link to
Link Embed	
Auto-advance slides:	
every 3 seconds (default) 🕶	
Start slideshow as soon as the player loads	
Restart the slideshow after the last slide	
Publish	
➤ Published content & settings	

Step 5

Open LifeLoop, and select displays on the bottom of the feature menu.

Step 6

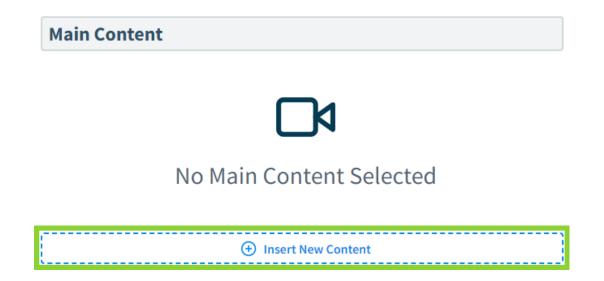

Select a previously created display.

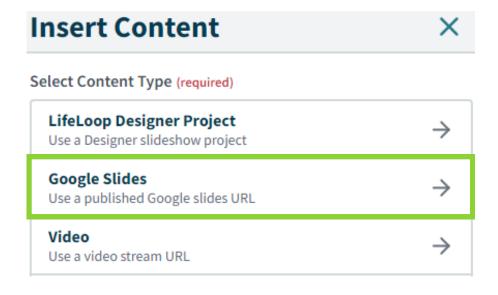

Step 7

Select + insert new content located under the main content section.

Step 8

Select Google Slides from the content type options.

3

Step 9

Paste the URL from Google Slides into the slideshow URL box.

Step 10

Enter an optional runtime duration. If runtime is left at 0, it will play on an infinite loop. If additional slideshows or videos will be added to the display, add the runtime duration for the slideshow.

Step 11

Utilize the checkbox to determine whether the slideshow will be displayed in fullscreen view.

Example of default view

Is Fullscreen

Slide will be displayed in fullscreen

Example of fullscreen view

Is Fullscreen

Slide will be displayed in fullscreen

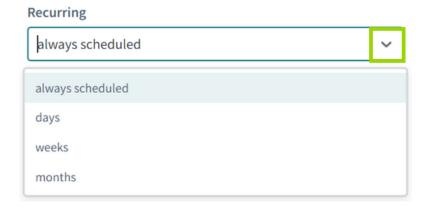

Step 12

To setup a recurring pattern for a project, select **setup recurrence**. Recurring patterns provide the ability to schedule the dining slides to only appear on certain days of the week or month.

Utilize the drop down menu to select the recurring option of always scheduled, days, weeks, or months.

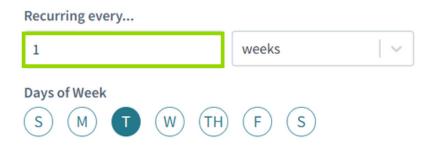

If days is selected, select the recurring every... box and enter the number of days the slideshow should recur such as every single day, every five days, etc. Example: Recurring every day.

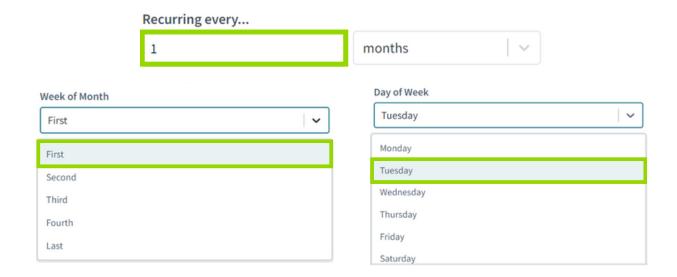

Step 12 (cont)

If weeks is selected, select the recurring every...box enter the number of weeks the slideshow should recur. Then select the days of week for the slideshow to occur on. Selected day(s) will be indicated by the filled in circle. Example: Recurring every week on Tuesday.

If months is selected, select the recurring every...box and enter the number of months the slideshow should recur. Select the week of month from the drop down menu. Then use the drop down menu to select the day of week. Example: Recurring the first Tuesday of every month.

Step 12 (cont)

Next enter the start date and last date for the recurring pattern. The last date of a recurring pattern will auto populate two years from the start date unless adjusted.

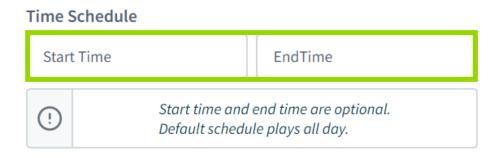

Once the recurring pattern is set up, select apply changes on the bottom right-hand side of the screen.

Apply Changes

Step 13

To schedule a specific time for the slideshow to play, enter the start time and end time in the respective fields.

8

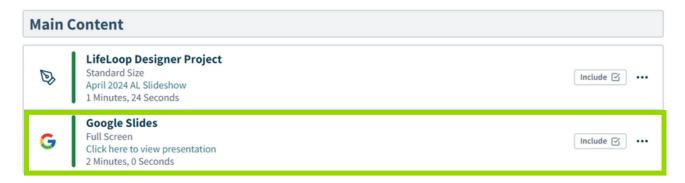

Step 14

Select insert content on the bottom right-hand corner of the form.

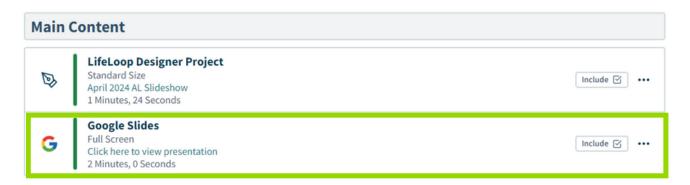

Insert Content

The Google Slides slideshow will now appear on the main content list.

Step 15

To make any changes to these display options, select the Google Slides slideshow in the main content section.

Step 16

Once edits are complete, select update content.

Resources

Video QR codes

How to scan QR codes

Open the camera app on a mobile device. Hold the device so the entire QR code is visible in the camera frame (you don't need to take a picture). Once the QR code has been read, a notification will appear at the top of your screen.

How to create a LifeLoop display

How to add Google Slides begins at the 6:20 minute mark.
