## Efficiency

# Scheduling & planning

Simplify scheduling and planning with solutions designed to streamline operations, so you can spend more quality time with your residents.

### Calendar management

Save time with simpler, smarter calendar management. Quickly build calendars with streamlined scheduling and recurring activity options for easy future planning. Empower residents to manage their own schedules and build highly attended programs based on their interests.

### Communication

Quickly and reliably connect residents, families, and staff. Boost staff efficiency, combat isolation, and keep everyone in the loop on critical issues with broadcast announcements, personal messaging, and image and information sharing.

## Transportation

Deliver worry-free transportation requests for your communities by empowering residents and their families to make ride requests with the click of a button. Easily filter requests and generate to-do lists for drivers, vehicles, residents, or locations. Drivers navigate stress-free with integrated Google Maps, ensuring a smooth experience for both parties.

## Resident app

Empower resident independence and encourage authentic connections. Residents can take charge of their day-to-day experiences, accessing activity registration, requests, and communication with ease. The mobile-friendly app sends automated reminders for meals and events, encouraging community inclusion and event attendance.

## Work requests

Offer staff, families, and residents a true concierge app designed to organize, manage, and track maintenance, housekeeping, or IT tasks. Customize views for progress updates and efficient history tracking, filtering requests by staff, resident, room, or location. Residents and loved ones can easily request and monitor services via any mobile device.
