Step 4

Select the LifeLoop display app.

Step 5

Scroll down and select clear cache.

FAQs

Why does my display keep going black?

Fire TV Sticks released an update that is setting a "do not disturb" notification and "still watching" mode starting at four hours that turns the screen black after four hours of no use.

Why do I need to clear the cache?

Clearing cache helps the device run optimally, and in doing so, fixes certain issues like slow loading times, etc.

Continued learning

Visit the Learning Community

Access LifeLoop marketing collateral and training resources at your convenience. Find the Learning Community by clicking the "?" on the top right-hand side of your screen or going to https://training.lifeloop.com/training/staff.

Attend a University course

Don't forget about our complimentary LifeLoop University available to you and your team. Courses are provided weekly and cover all LifeLoop features. Emails with the topics and schedules are sent out monthly for you to register to attend.
